Radhey Hari Govt. P. G. College, Kashipur, Uttarakhand

Department of Physics

Department of Physics at R. H. Govt. P. G. College Kashipur was recognized as a model department of the college with its excellent teaching and the research work

The department also has very good laboratories for UG and PG students and rich library which has a collection of more than 1000 text books for PG as well as research students including many rare and excellent reference books by foreign authors

Various national/international seminars/symposia have been organized by the department time to time where students have actively participated. Recently, during past few years a chain of scientific events and Lectures have been organized under the able leadership of Prof. Mahipal Singh as Head of the Department with a grand success. Every year a number of reputed scientists/Professors are invited to deliver invited/guest lectures in the department which have proven to be very useful for the students as well as faculty members.

The faculty members of the department are well connected with a number of National and International Universities/Research Institutes not only in India but abroad also. Prof. Mahipal Singh and Dr. Renuka Chauhan are collaborating in their specific fields of Condensed Matter Physics(Experimental) with prestigious Universities/Institutes like University of Delhi, Uttarakhand Open University, Inter-university Accelerator center(New Delhi), Inter-university center (Indore) and G. B. Pant University of Ag. & Technology (Pantnagar), under various international collaborating programmes. In addition, the faculty members and the research scholars of the department have participated in several International/ National scientific events actively

Major Academic Activities/Achievements of the Department during last Five Years (2019-2024)

- 15 research papers have been published in the journals of International repute in last five years
- One research fellows have qualified for Assistant Professor of Physics at M P Government.
- One research fellows have qualified for Teacher (PGT) of Physics in UP government.
- Miss. Riya Gola, a Ph. D. student has qualified NET-JRF/GATE in last five years.

At the department, both PG and UG programmes are run with Semester System commencing from July every year with the intake of 33 students at PG level where the following specializations are offered to the students

1. Advanced Electronics

Research work is primarily carried out in the following branches of Physics:

- **1.** Condensed Matter Physics(experimental)
- 2. Condensed Matter Physics(theoretical)
