कक्षा का अनुभव जो इसके विभिन्न घटकों को प्राप्त होता है वह सीखने के माहौल का सबसे अच्छा हिस्सा है। यह अनुभव शिक्षकों और छात्रों के लिए अलग है। लेकिन यह उनके सामूहिक अनुभव का एकीकरण है जो कक्षा के अनुभवों की वृद्धि और प्रगति में योगदान देता है।

शिक्षकों को क्लासेस देनी चाहिए
Agree
सीखने और सिखाने के अनुभव का असाधारण संयोजन बनाने की गतिविधि एक सतत प्रक्रिया है। इन सभी रणनीतियों को नियोजित करने के पीछे सबसे बड़ा विचार स्कूली शिक्षा के माहौल में एक व्यापक अनुभव पैदा करना है। शिक्षकों और छात्रों दोनों को इस बात का प्रत्यक्ष ज्ञान होना चाहिए कि प्रभावी शिक्षण कार्यक्रमों में सक्रिय रूप से कैसे भाग लिया जाए। मैं आप सभी को सीखने और सिखाने के सुखद अनुभव की कामना करता हूँ
सुझाव: कक्षा की चर्चाओं और गतिविधियों में छात्रों की सक्रिय भागीदारी को प्रोत्साहित करें।
शिक्षक एक सहायक सीखने का माहौल बना सकते हैं जहाँ छात्र अपने विचारों और विचारों को साझा करने में सहज महसूस करते हैं।
सुझाव: शिक्षण में अवधारणाओं के व्यावहारिक अनुप्रयोग पर जोर दें।

चाहे यह एक विशेष शिक्षण या शिक्षण अनुभव को बढ़ावा देने के बारे में हो या ऐसे वातावरण के शैक्षणिक लक्ष्यों को आगे बढ़ाने वाले सर्वोत्तम मार्ग प्रदान करने के बारे में हो, महत्व योजना चरणों से निष्पादन चरण तक एक वांछित मॉडल विकसित करने और उसका पालन करने पर है।
सीखने और सिखाने दोनों प्लेटफार्मों में रणनीति और तरीके विकसित करना महत्वपूर्ण है। यह प्रासंगिक है क्योंकि उन रणनीतियों को एक-दूसरे का पूरक होना चाहिए और समग्र शिक्षण वातावरण को सशक्त बनाने और गुणवत्ता प्रदान करने के लिए एक विलय मंच पर एक साथ काम करना चाहिए।

Implement interactive and experiential learning methods: Encourage teachers to incorporate interactive activities, group discussions, and hands-on projects into their lesson plans. This approach fosters student engagement, critical thinking, and retention of knowledge. Foster a culture of feedback: Establish regular channels for students to provide feedback on courses, teaching methods, and overall learning experience. This feedback loop allows educators to continually adapt and improve their approach based on students' needs and preferences. Embrace technology integration: Invest in technology resources and training for both teachers and students to enhance the learning experience. Utilize educational platforms, multimedia tools, and virtual simulations to facilitate dynamic and personalized learning opportunities that cater to diverse learning styles.

<p>Interactive relationship organized around academic work</p>

<p>Education top to word in India and education fully loaded and good education</p>
<p>1.To improve classes condition 2. Student have less connection with teachers 3. Start online classes for all subjects not only an appropriate subject</p>

1. Strictly mandate minimum number of classes a professor have to take in a month, semester and in overall course they are designed, one of the effective measures can be reducing their non academic work
2. Mandate attendance requirements for the students, in case of default favorable alternative should be there for students to compensate for the attendance, one can be taking there oral examination of the classes they have not attended, this can be hectic for the professor but professor can do it in a form of group discussion and can accordingly give points which can compensate the attendance requirement.
3. There should be an external board, to supervise whether the classes are going on regular basis or not

It's my humble request to please restructure the whole system of this college because this college is just being a factory of producing sheet of paper called "degree". Teachers are not teaching, students are not attending classes, staff is so arrogant, principal is not accessible, basic infrastructure is not available etc etc. all this is ultimately wasting the economic and human resources of the country. Few years of dedicated work towards improving the academics of the college can contribute so positively in lives of the many students, they will be more well educated and well aware citizens of our country which will ultimately result in making india a विश्व गुरु in true sense because every brick of the wall is important in building, in the same way every student of every college is important in nation building and not just students of those big popular IITs and JNU.

I'm so glad that I have got this opportunity of giving suggestions.

I think Everything is Far
